Applied Economics, 1984, **16**, 945–948

Indexes to Volume 16

TITLE INDEX

Adaptive trading rules and dynamic market disequilibrium, 1
Analysis of household expenditures on durables in 1970 and 1977: the effect of selection bias. An, 497
Analysis of the demand for housing attributes. An, 597
Automobile styling as a shift variable: an investigation by firm and by industry, 291

Behaviour of Hong Kong stock prices. The, 905
Bureaucratic model of local government tax and expenditure decisions. A, 257

Comment on 'The small country assumption: a note on Canadian exports'. A, 933
Commodities as a hedge against inflation, 855
Consumption function in macroeconomic models: a comparative study. The, 799
Correcting for heteroscedasticity in regressions where the dependent variable is a logarithm: A warning note, 159
Cost effectiveness of publicly funded research: a case study of the United States academic research fleet, 355
Cost shifting: an empirical examination of hospital bureaucracy, 279
Covered interest rate parity: the Australian case, 655
Cyclical and secular influences on the size distribution of personal income in the UK: some econometric tests, 749

Demand for labour in the Italian industry (1970–80), 583
Demand for working capital. The, 791
Determinants of expectations of retirement: evidence from a less developed country, 677
Determinants of labour demand in Australian manufacturing. The, 449
Discriminant analysis of factors affecting the employment of urban youth. A, 757

Econometric analysis of the effects of population change on economic growth: A study of Taiwan. A, 523
Effect of city size on the urban income distribution through time: 1950–70. The, 717
Effect of income taxation on the demand for employer-provided health insurance. The, 33
Effect of voluntary restraint agreements: a case study of the steel industry. The, 175
Empirical model of the demand for health care in Belgium. An, 317
Employment of young males in a segmented labour market: the case of Great Britain. The, 187
Endogeneous government policy in a model of the UK economy, 633
Energy and capital: substitutes or complements? Some results for the UK industrial sector, 783
Environmental protection policies and the structure of the US economy, 237
Extent of voluntary disclosure in corporate annual reports and its association with security risk measures, 269

Factor substitution and complimentarity in energy: a case study of the UK electricity industry, 111
Family labour supply: some empirical results from agriculture, 895
Forecasting Canadian consumption using the Dynamic Generalized Linear Expenditure System (DGLES), 839

GDP residual error and the balck economy: a note. The, 443

Has membership of the European communities been a disaster for Britain? 299
Household demand for fuel oil, 475
Household saving out of different types of income revisited, 379
Housing starts and mortgage availability: evidence from the UK time series, 881

How to maximize golden opinions, 647

Impact of fiscal policy in the UK: Evidence from two macroeconomic models. The, 729
Impact of technical change on the aggregate production function. The, 555
Influence of demand and supply side pressures on the quantity and quality of inventive activity. The, 131
Information activities in total Candadian manufacturing: separability and substitutability. The role of, 763
International trade performance and concentration in British industry, 421
Inventory accumulation and expectations of real income, inflation and interest rates, 411

Market shares in the UK passenger car market: marketing, expenditure and price effects, 1975–80, 611
Market shares of US tourist expenditure in Europe: an econometric analysis, 919
Monetary approach to the exchange rate revisited. The, 771

Note on tests of Granger causality, A. 335

Omitted variables in equations relating prices to money, 483
Optimal job assignment and investment in specific human capital: an application to professional teachers, 703
Optimizing economic policy with sliding windows, 45
Output expectations of manufacturing industry, 869

Political approaches to smoking control: A comparative analysis, 569
Portfolio behaviour of pension funds in the US: an econometric analysis of changes since the new regulation of 1974. The, 687
Price and tariff effects in a dynamic specification of the demand for imports, 15
Price equation and excess demand: a reappraisal. The, 935
Profit margins and market concentration in UK manufacturing industry: 1970–6, 57

Rational expectations and forward exchange market efficiency, 99

Social cost of imperfections in domestic trade: the case of Finland. The, 119
Some economic effects of standards, 507
Specification and estimation of a disequilibrium labour market model. The, 539
Stability of Canadian refinery response to petroleum produce prices, 667
Stochastic input supply: theory and evidence, 343
Structural sensitivity of short term output–inflation tradeoffs. On the, 81
Study of regional trends in the labour force participation of married women in the UK, 1968–1977. A, 163

Tax exhaustion: estimates from a disaggregate model of corporate tax liabilities, 205
Testing for sex discrimination in maximum likelihood models, 225
Three-objective social welfare function for cost–benefit analysis, A, 369
Timing of antitrust effects on pricing. The, 397
Transitition function estimation of structural shifts in models of American trade union growth, 73

Unionization and absenteeism, 147
US export competitiveness: 1962–77, 461

Vertical equity effects and total consumer losses for emergency allocation schemes for the gasoline market, 25
